<https://www.prarupmanandhar.com.np>

With months of professional experience as a Graphics Designer, I have honed my abilities to produce eye-catching designs for both print and digital media. I've successfully created graphics using Figma, including logos, marketing materials, social media content, and website design. Despite having only had a brief amount of experience, I have grown to have a keen eye for detail, a strong sense of aesthetics, and a firm grasp of design principles. I can work in a fast-paced environment and adhere to strict deadlines because I am a proactive and adaptable team player. In order to produce outstanding results for upcoming projects, I am eager to keep honing my abilities and bringing my creativity to them.

## Education

JUNE 2022

[Bachelor of Information Management](#) / National College of Computer Studies / Tribhuvan University.

- GPA 3.40
- Major Courses: Cyber Security & Cyber Law, Software Engineering, Structured Programming, Web Programming, Web Programming, Java Programming, Computer Graphics, Discrete Mathematics, Economics, Statistics.

## College Projects

- **Food Blog:**
  - Developed a Food blog model using Django (worked on fronted using html/css).
- **Chatbot model:**
  - Developed a Chatbot model using Django (worked on fronted using html/css).
- **Freelancing site:**
  - Worked on designing UI for the site.
- **Auction site:**
  - Worked on designing a logo for the project.
  - Designed login/signup page, landing page and dashboard for the site.
- **Service Booking site (summer project):**
  - Designed a service booking for Royal Gurkha Garage using html/css and php.
- **Mark IT (Internship project):**
  - Researched users, analyzed data, and designed wireframes/mockups for website layout and functionality.
  - Ensured design consistency for seamless user experience: color, typography, layout.
  - Iterated design via usability testing for enhanced user experience.

# Experience

APRIL 2023-PRESENT

**Graphics Designer / Globaly Hub, Kumaripati-19, Lalitpur.**

As a designer, my area of expertise is developing brand-driven concepts that support organizational objectives. I am skilled at using feedback-driven iteration to continuously enhance designs and obtain the best results. My design process takes into account current trends to keep my work fresh. I am skilled at wireframing, which involves using visual tools to make powerful design frameworks. My greatest strengths are collaboration and teamwork, as I work well in cross-functional teams and benefit from different viewpoints to produce the best outcomes. My unwavering dedication to quality ensures that all of my work is up to par.

NOVEMBER 2022-MARCH 2023

**Graphics Designer / EdVision Services, Kumaripati-19, Lalitpur.**

As a creative and collaborative designer, I excel in creating visually appealing graphics and designs. I have successfully collaborated with cross-functional teams, including cyber security experts, marketing, and other stakeholders, to ensure alignment with business objectives. I am skilled in creating wireframes, mockups, and prototypes to visually illustrate design ideas and interactions, and adept at incorporating feedback from team members and stakeholders to refine and iterate on designs. Staying up-to-date with design trends and emerging technologies, I constantly strive to deliver cutting-edge solutions. I am experienced in managing multiple design projects simultaneously, meeting tight deadlines, and ensuring timely delivery of high-quality work. With a keen eye for detail, I ensure that all design work is visually appealing, error-free, and meets the highest standards of quality and professionalism.

MARCH 2022- JUNE 2022

**UI/UX internship / Treeleaf.ai, Sankhamul, Lalitpur.**

As an intern, I have gained valuable experience in conducting user research, creating UI/UX designs, conducting usability testing, and developing interaction designs. I have collaborated effectively with cross-functional teams, assisted with design documentation, and stayed updated with industry trends. I have also applied visual design principles to create user-friendly interfaces and ensured accessibility compliance. My problem-solving skills have allowed me to identify and address design challenges, contributing to the creation of impactful and engaging digital experiences.

## Soft Skills

- |                   |                                |
|-------------------|--------------------------------|
| • Adaptability    | • Attention to detail          |
| • Ethical Mindset | • Cross-cultural communication |
| • Team player     | • Problem solving              |
| • Time management | • Interpersonal skills         |
| • Self-motivation | • Learning agility             |
-

## Hard Skills

- Software Proficiency
  - Operating system knowledge
  - User research
  - Typography
  - Image editing
  - Layout and composition
  - Branding and identity
  - Illustration
  - Web technologies
  - Risk assessment
- 

## Volunteer-Experience

- Project Humane Nepal (Nepal)

As a passionate animal lover, I have dedicated my time and efforts to volunteering with Project Humane Nepal, a nonprofit organization focused on helping stray animals in need. Through my volunteer work, I have actively participated in rescuing, rehabilitating, and providing care to abandoned and injured animals, including dogs and cats. This has involved tasks such as feeding, sheltering, providing medical care, and assisting with adoption efforts.
